*Because Lighting Speaks Volumes*

## Description

Handsome and sophisticated, this hanging chandelier shines with ethereal ambience. Cylindrical light shades are elegantly perched on crossed beams, emitting a vibe of esoteric serenity reminiscent of eras past. Enjoy the stunning radiance of etched white cased glass. Individually handspun by master glassblowers, each elegant cylindrical shade is crafted layer by layer into a flawless multi-layered cylinder with a delightfully smooth touch. Enjoy phenomenal long-lasting color that will never fade from cleaning or sunlight. Glass color is always non-painted and 100% natural, inherent to the original sand pigment from which it was created. Illumination mechanism is sure to impress with unique beauty. Light diffuses within multiple layers instead of simply filtering through so that the entire shade glows bright in perfect uniformity. Thickness and weightiness from multiple glass layers ensures long-lasting durability and captures an immaculate glow throughout the glass. Enjoy the warm, magnificent look of wood with all the advantages of metal. Top quality metal frame is processed with a revolutionary finishing technique, then flawlessly and evenly handpainted by master artisans in a rich walnut color. The final metal product looks like genuine wood and is stable, durable, and extremely resistant to moisture and wear. Accent your spaces with this serene, alluring piece for an intriguing look.
