Description

Indulge in this indoor bath or vanity bar light or wall mount's contemporary design. Heavy and thin lines are balanced for a clean, crisp feel. Straight, striking rods, bars, and thin metal lines are paired or crossed to provide brilliant contrast. This elegant piece features stunning etched white cased glass cylinder shades. Individually handspun by master glassblowers, glass is crafted layer by layer into a flawless multi-layered cylinder with a delightfully smooth touch. Enjoy phenomenal long-lasting color that will never fade from cleaning or sunlight. Glass color is always non-painted and 100% natural, inherent to the original sand pigment from which it was created. Illumination mechanism is sure to impress with its stunning, unique radiance. Light diffuses within multiple layers instead of simply filtering light through, emitting an ethereal, serene ambience and capturing an immaculate glow throughout the glass. This versatile light can conveniently mount up or down. Install upwards for an uplight configuration or downwards for a downlight configuration. Open/uncovered shades provide convenient access for quick and easy light bulb replacement and helps prevent dust accumulation. Conveniently suitable for both damp or dry locations. Beautifully finished with flawless nickel. Feel at ease with this material's lasting quality and stunning appearance. High-quality nickel provides phenomenal durability and an attractive gleam. Hard surface provides top quality protection against scratches. Easy maintenance—simply clean and polish to achieve an even more lustrous shine. Outer lacquer finish provides an attractive sheen and additional layer of protection. Perfect complement to stainless-steel appliances, bathrooms, vanity, powder rooms, hallways, restaurants, and many other indoor areas. Delight in this exquisite piece's sleek, angular look.

Specifications
